

Maximize Return On Experience

Delight guests, Retain staff, Grow margins across every hospitality touchpoint

High Return Hospitality™
Focus on **HOTELS & RESORTS**

Your guest is in control—curating a preference-based stay with unified booking and one itinerary showing room choice, activities, dining and more.

Initial Engagement

Frictionless, mobile and kiosk-based check-in means guests avoid lines and choose their own rooms.

Guest room not ready? Overcome potential disappointment with delight—digitally offer a free room upgrade, spa service, round of golf, or brunch.

Delight guests with food and beverage at-a-click ordering delivered wherever they are. Fast, easy, mobile ordering and payment—accessible on personal devices—drives order volume and food and beverage revenue while reducing server stress.

Make servers stars. With up-to-the-moment guest data at their fingertips, servers know guest seating choices, food preferences, allergies, personal celebrations and more.

Ensure foursomes have tee-times at their preferred courses. Keep the pro-shop stocked to boost profits and promote your brand.

Short on labor? Augment staff with self-service kiosks. From check-in to dining reservations and on-demand mobile food ordering, service at guests' fingertips means continuous, sales even when staff is constrained.

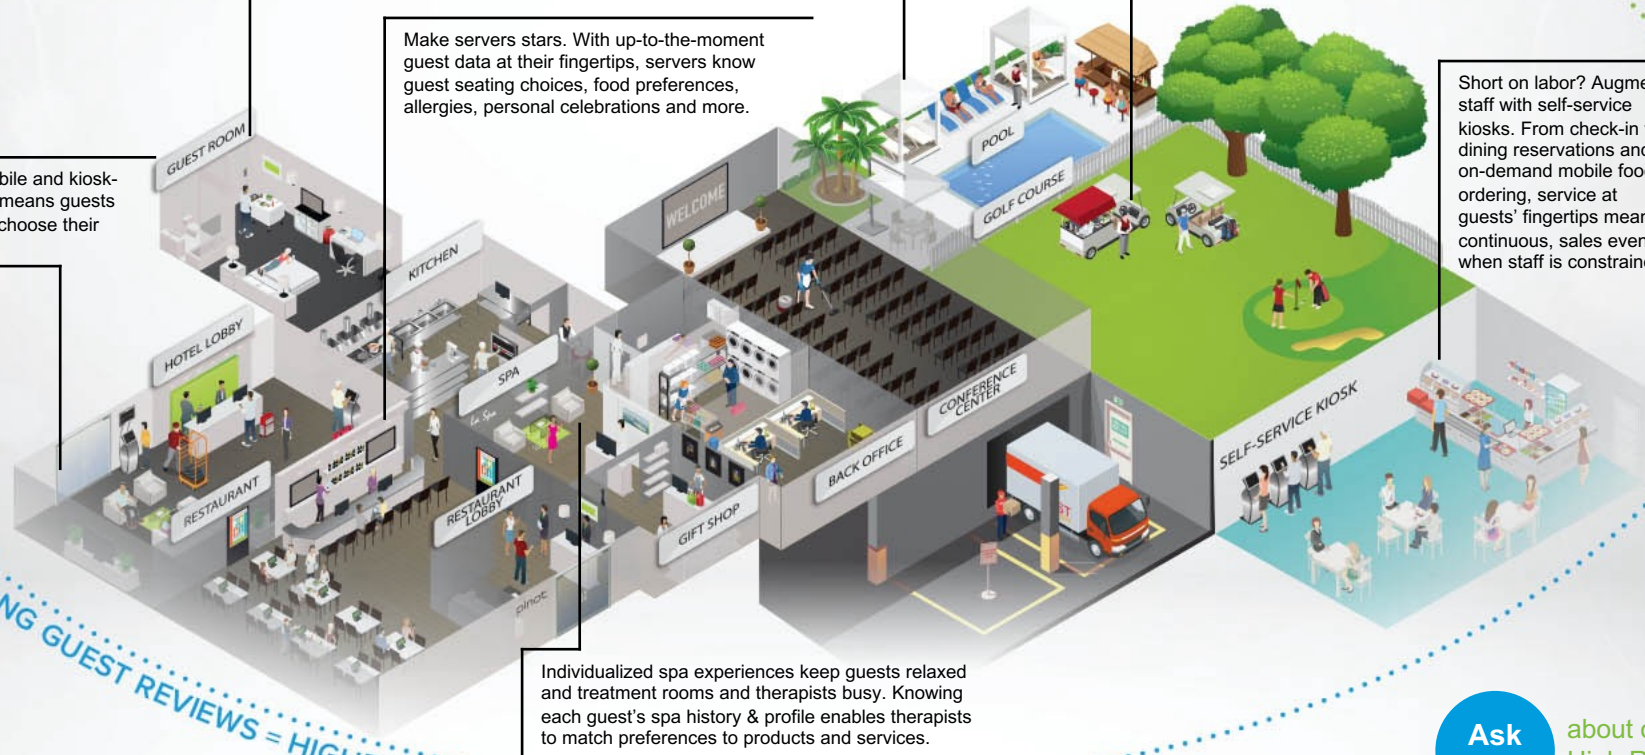

Continuous Connection

Personalized return-stay offers present new adventures before and throughout each stay—consistently driving higher spend & stronger reviews.

STRONG GUEST REVIEWS = HIGHER GUEST RETURNS

INCREASED GUEST SPEND = HIGHER ECONOMIC RETURNS

Individualized spa experiences keep guests relaxed and treatment rooms and therapists busy. Knowing each guest's spa history & profile enables therapists to match preferences to products and services.
